PROFESSIONAL
EXPERIENCE

Business Analyst | 2024-Present

Affirma Consulting | Microsoft

- Analyzed competitive business models and strategies to better help the clients identify growth opportunities and generate revenue.
- Monitored 6 concurrent client engagements and developed automated M365/Azure dashboards, streamlining reporting workflows and surfacing business opportunity insights.
- Conducted statistical modeling analysis across 3 workflows, identifying operational inefficiencies and driving a 34% reduction in costs and process overhead.

Machine Learning Data Analyst | 2021-2024

Affirma Consulting | Microsoft

- Improved predictive accuracy for natural language processing models in productivity applications by applying diverse analytic and ML/AI strategies.
- Worked collaboratively with team members using GitHub and Visual Studio Code, alongside a range of proprietary software, to develop and refine large language models for industry applications.
- Collaborated with 20+ data engineers using GitHub, contributing to shared Python libraries and maintaining 95% code coverage through pytest unit testing.

Logistics Operations Manager | 2020-2021

United Postal Service

- Led a team in a fast-paced environment, focusing on improving productivity through the use of performance metrics and management strategies.
- Gained significant experience in management and conflict resolution, while utilizing performance data to enhance operational efficiency and safety.
- Implemented performance dashboards tracking 45 team members' productivity metrics, scaling best practices that improved on-time delivery from 79% to 96%.
